

SIMPLEX soft-face mallets • TPE-mid / plastic; with reinforced cast iron housing and fibre-glass handle EH 3736.

Product Description

The SIMPLEX series 3736 is available with the insert combination of TPE-mid / plastic. The grey TPE-mid insert (series 3203) allows for an impact force that is comparable to the black rubber insert. The difference is that it will not leave any undesired black marring. The red plastic insert (series 3206) is hard and also oil and grease resistant. The black, reinforced cast iron housing provides for greater stability thanks to the enlarged wall thicknesses and struts. The increase in weight ensures greater impact force. Extremely rugged and durable, the fibre glass handle offers exceptional break resistance. It is shaped ergonomically and includes a non-slip handle. It possesses a smooth surface and is inorganic (non-sensitive to moisture). In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources. This version is available in sizes D30mm to D60mm.

Product features:

- SIMPLEX soft-face mallet with the insert combination of TPE-mid (grey, medium hard, no marring) / plastic (red, hard, oil and grease resistant).
- Reinforced cast iron housing with great stability boosts impact force by adding weight.
- Exceptionally rugged and durable fibre glass handle with non-slip grip, inorganic (non-sensitive to moisture).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in D30mm to 60mm.

Application Areas

Versatile use, assembly and repair work, maintenance work, sheet-metal forming, prefabricated house construction, carpenter's work, scaffold construction, tent construction

Material

Handle

- Fibreglass with rubber grip

insert 1

- TPE-mid, grey
- Non-marring
- Medium hard

insert 2

- Plastic, red
- hard
- Oil and grease resistant
- Universal

Housing

- Reinforced cast iron, black
